UPS AND BACKUP POWER

Pinnacle is in the business of helping customers achieve their objectives by providing products and services that assure the continuity and quality of power for critical information systems and key processes.

Pinnacle offers the broadest range of solutions in the industry, from surge protection and power conditioning to Uninterruptible Power Supplies in off-line, on-line and line-interactive topologies, backup power generators, software, communications and remote monitoring. We believe that collaborating with our customers to improve how we service and support our solutions and services is the only way to maintain our world-class standards

- Backup power System Design
- Preventative Maintenance
- On-Site Maintenance Contract
- 24-hour, 7 Day-A-Week Support
- Backup Power Audit & Assessment
- Remote Monitoring
- Installation and Service
- Relocation

We concentrate on the reliability and cost effectiveness of your power backup system to keep your mission-critical information technology systems up and running efficiently.

Our team is able to maximize the reliability and uptime of your computing infrastructure by analyzing and assessing your unique computing needs. We design power backup systems and make recommendations based on industry proven solutions and standards and maximize our clients' return on investment.

- Line Interactive UPS
- Off-line UPS
- Power Distribution Units
- Standby Protection Systems
- On-line UPS
- Backup Generators
- Parallel Redundant UPS
- Remote Power Backup Monitoring

Pinnacle provides comprehensive power backup monitoring services and smart, state of the art power protection solutions that are designed to proactively identify and allow one to correct problems before downtime occurs.

The "new economy" depends on, and demands, 24 x 7 availability of information technology resources. Pinnacle provides a complete power protection solution to fit your needs. Our extensive background and experience with the requirements of Information Technology centers and technology driven business allows us to design, install and maintain reliable power backup systems that will keep your company at the forefront for today's highly competitive marketplace.

***I** just wanted to let you know that I am exceptionally pleased with the work done by your Pinnacle team and wanted to pass along my thanks to your organization for a successful project. The work ethic displayed by your team will insure that your organization will be working again for Imax Ltd.*
