HEADLINE: Pinnacle Communication Services Announces Appointment of Mathew Pomeroy as Executive Project Manager

Pinnacle Communication Services is proud to announce the appointment of Mathew Pomeroy as its new executive project director of its Audio & Video & Lighting department.

Mat joined the **Pinnacle** team in 2011 as a project coordinator and was instrumental in coordinating and managing project installations, system design and logistics planning as he partnered with our clients to design strategic solutions that meet or exceed their business and communication needs. "Mat will bring leadership to the team and a deep sense of commitment to our clients," reported Avo Amirian, CEO of **Pinnacle**.

From the early stages of each project, Pinnacle's team collaborates with End Users, Architects, Designers, Consultants and General Contractors in order to create an integrated Audio Visual and Lighting (AVL) system for our clients to address their ever-changing business needs. He will be responsible for spearheading **Pinnacle's** efforts to streamline AVL operations for its clients. Mat brings with him years of experience project management and a unique perspective as an LMU graduate.

He holds a Bachelor of Science in both economics and political science from Loyola Marymount University. In 2009, he graduated from LMU's MBA Program with an emphasis in international business systems.

Pomeroy coordinates and manages project installations, system design and logistics planning. Mat has done a great job as Project Coordinator for PAVL over the past few years," said Avo Amirian, CEO of **Pinnacle**. "Performance has increased dramatically since Mat took over and positive results have also increased dramatically." This promotion is well deserved; day-to-day operations are in good hands with Mat at the helm in PAVL."
